

Postman interface showing the 'Lesson2-EndProject' collection. The 'Variables' tab is active, displaying a table with one variable: 'Base_URL'.

Variable	Initial value	Current value
<input checked="" type="checkbox"/> Base_URL		

Below the table is a button 'Add new variable'.

A notification box at the bottom states: 'Use variables to reuse values and protect sensitive data'. It includes links for 'variable type' and 'variable values'.

The bottom status bar shows the system clock: 16:54, 07-11-2023, and weather: 30°C Partly sunny.

Postman interface showing the 'Lesson2-EndProject / Openweatherreq' request. The 'Query Params' tab is active, displaying a table with two parameters: 'appid' and 'q'.

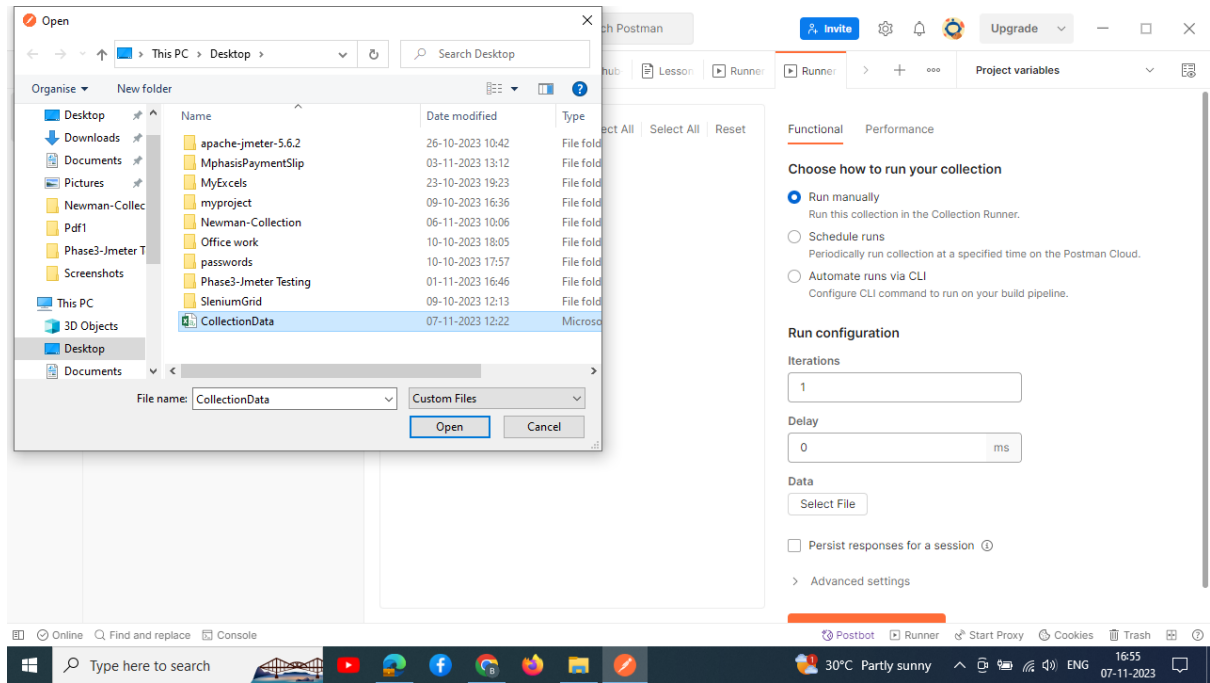

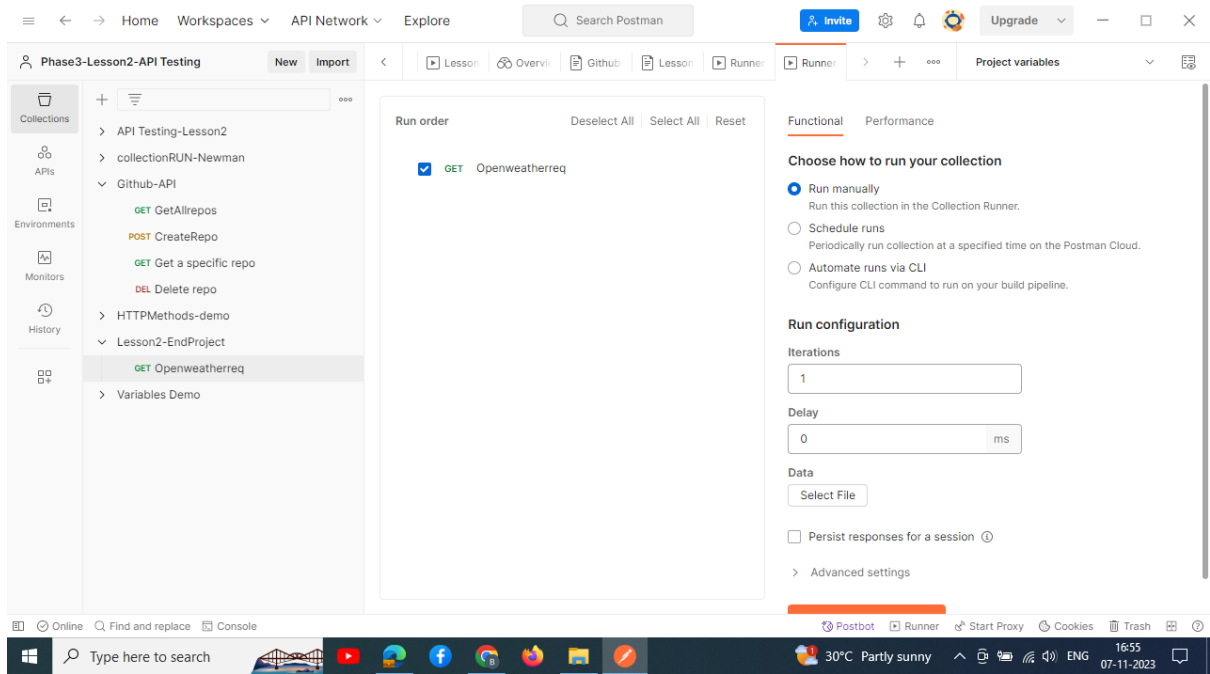

Key	Value	Description
<input checked="" type="checkbox"/> appid	34154640d7297094244b68e70ddec390	
<input checked="" type="checkbox"/> q	{{city}}	

The 'Body' tab is also visible, showing a JSON response in 'Pretty' format:

```
1  {
2    "coord": {
3      "lon": 77.2311,
4      "lat": 28.6128
5    },
6    "weather": [
7      {
8        "id": 711,
9        "main": "Smoke",
10       "description": "smoke",

```

The bottom status bar shows the system clock: 16:54, 07-11-2023, and weather: 30°C Partly sunny.

Postman interface showing the configuration for running a collection. The left sidebar shows the project structure under "Phase3-Lesson2-API Testing". The main panel displays the "Run order" with a single item: "GET Openweatherreq". The right panel shows the "Run configuration" options.

Choose how to run your collection

- ☒ Run manually
Run this collection in the Collection Runner.
- ☐ Schedule runs
Periodically run collection at a specified time on the Postman Cloud.
- ☐ Automate runs via CLI
Configure CLI command to run on your build pipeline.

Run configuration

Iterations:

Delay: ms

Data: CollectionData.csv

Data File Type:

☐ Persist responses for a session
