Create a collection for your requests

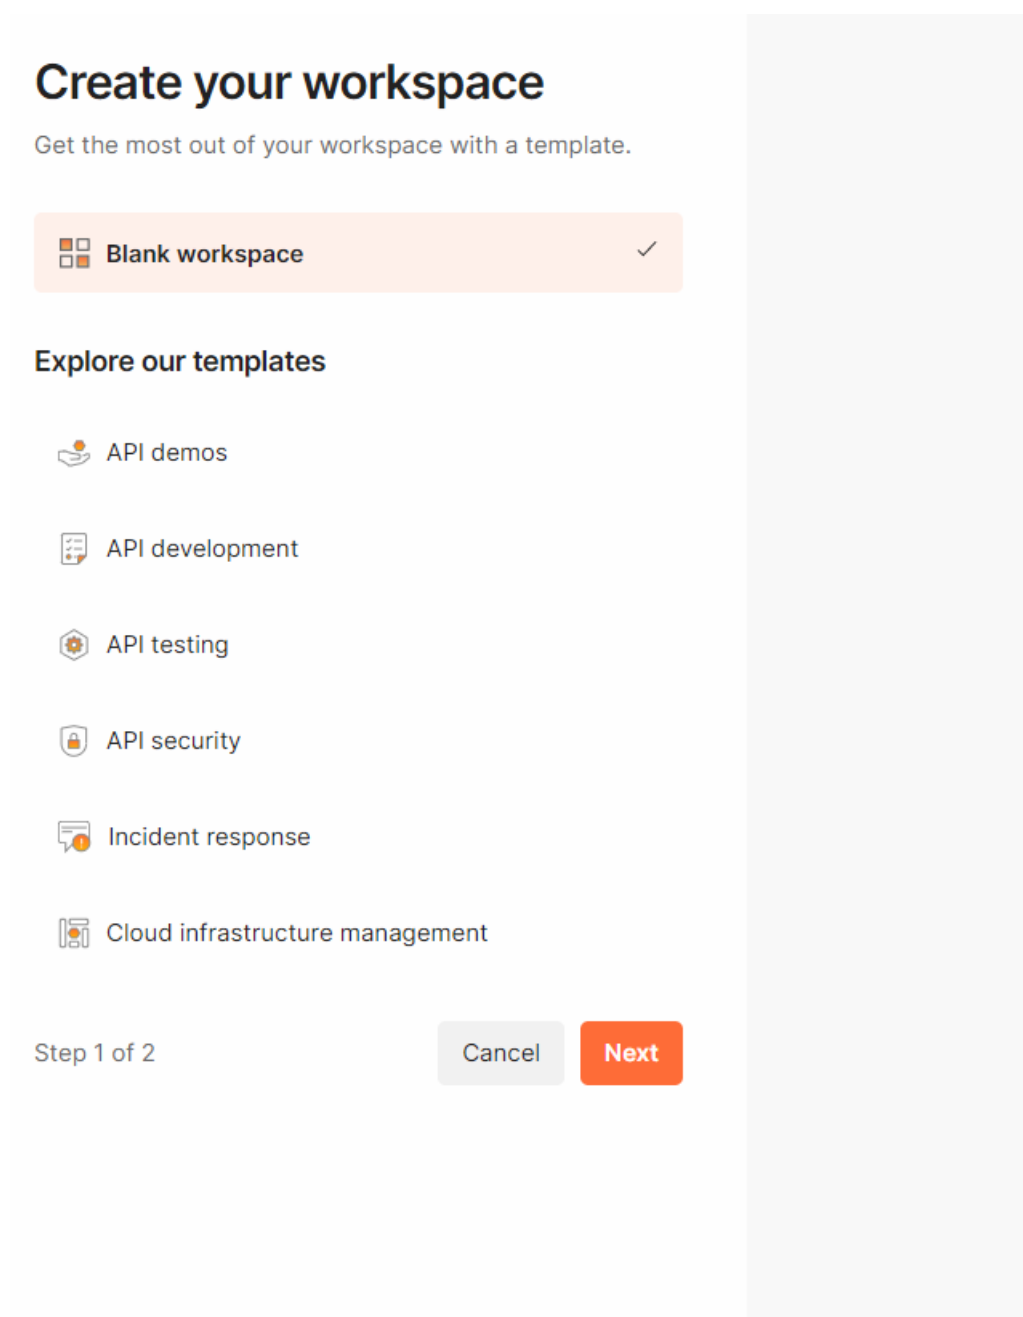

A collection lets you group related requests and easily set common authorization, tests, scripts, and variables for all requests in it.

Create Collection

Create a Workspace in postman:

Click on next button

# Create your workspace

Name

apitestingdemo

Summary

Who can access your workspace?

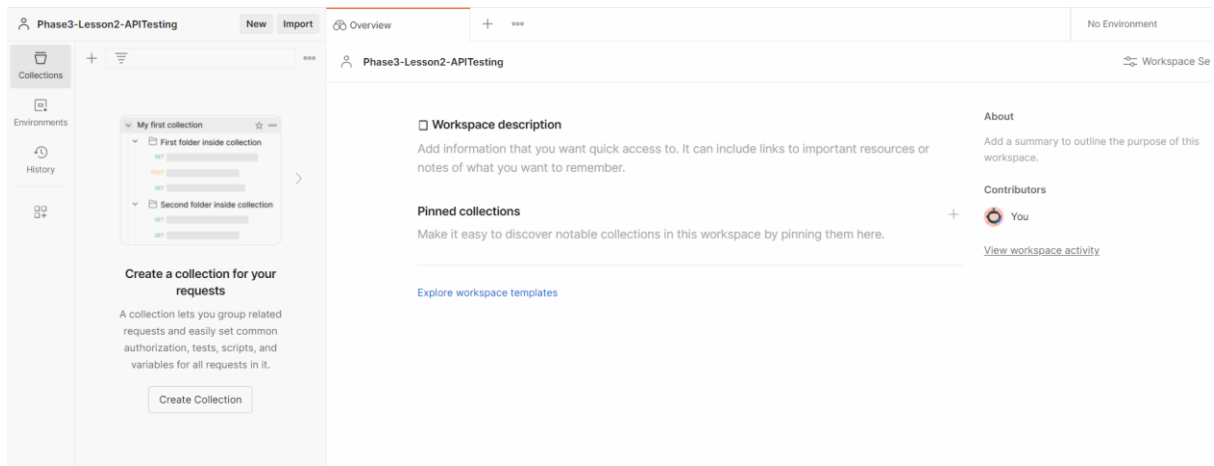

- ☒ **Personal**  
Only you can access
- ☐ **Private**  
Only invited team members can access
- ☐ **Team**  
All team members can access
- ☐ **Partner**  
Only invited partners and team members can access
- ☐ **Public**  
Everyone can view

Step 2 of 2

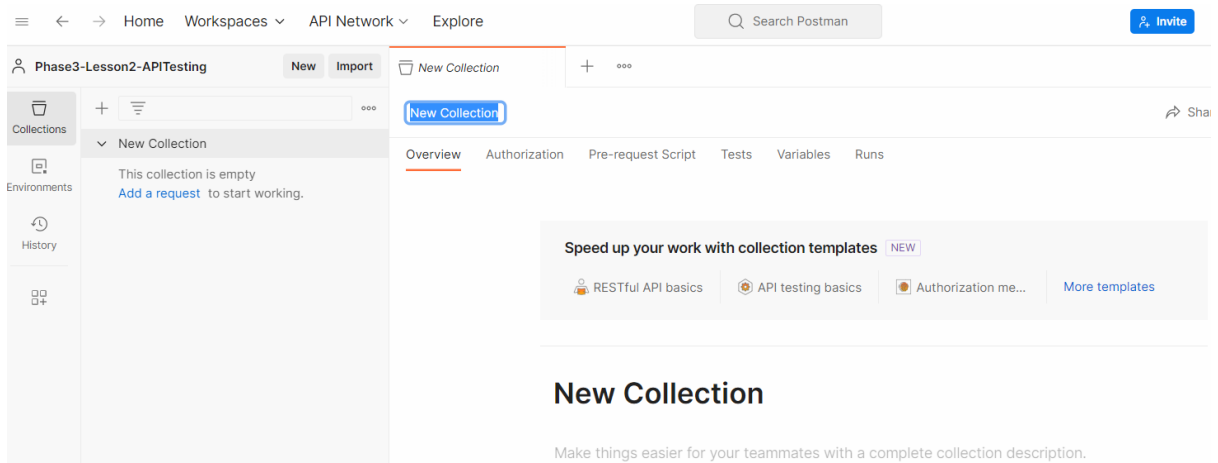

Back

Create

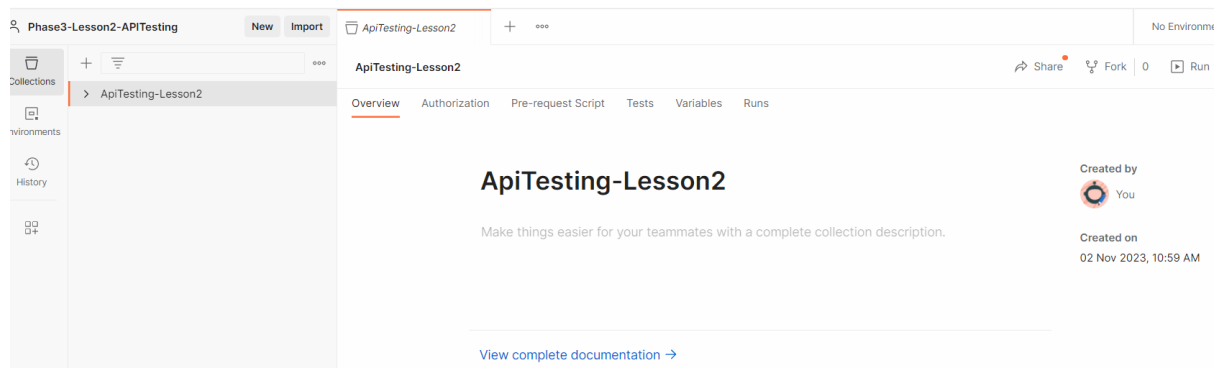

Click on create button and workspace will be created

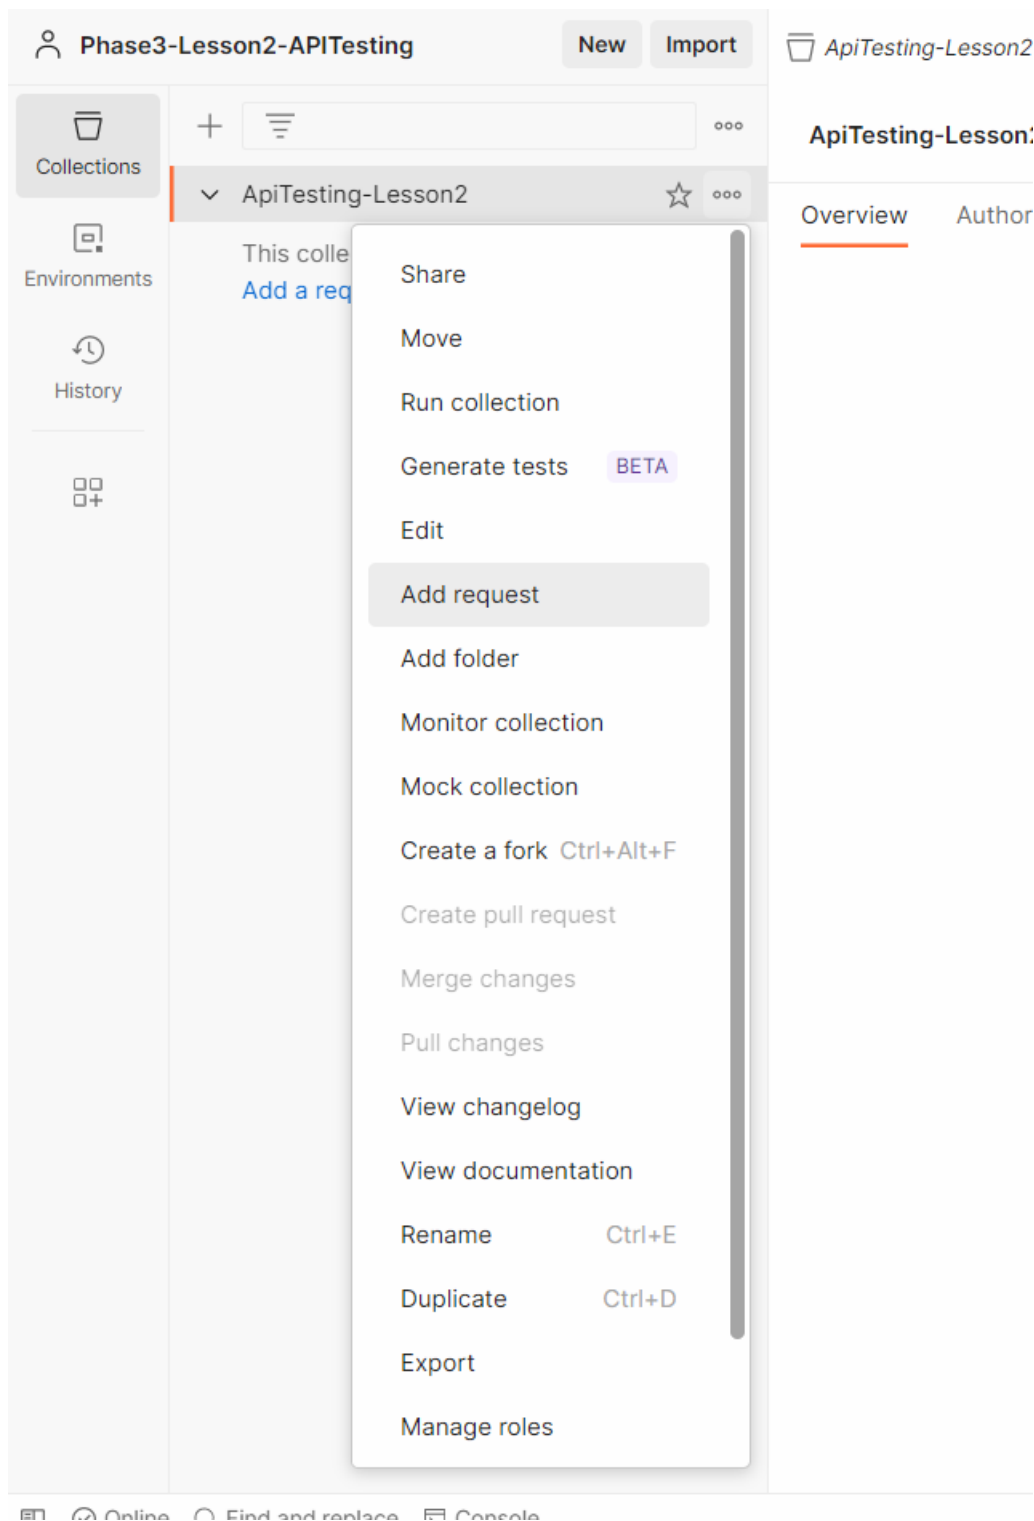

Create a collection first:

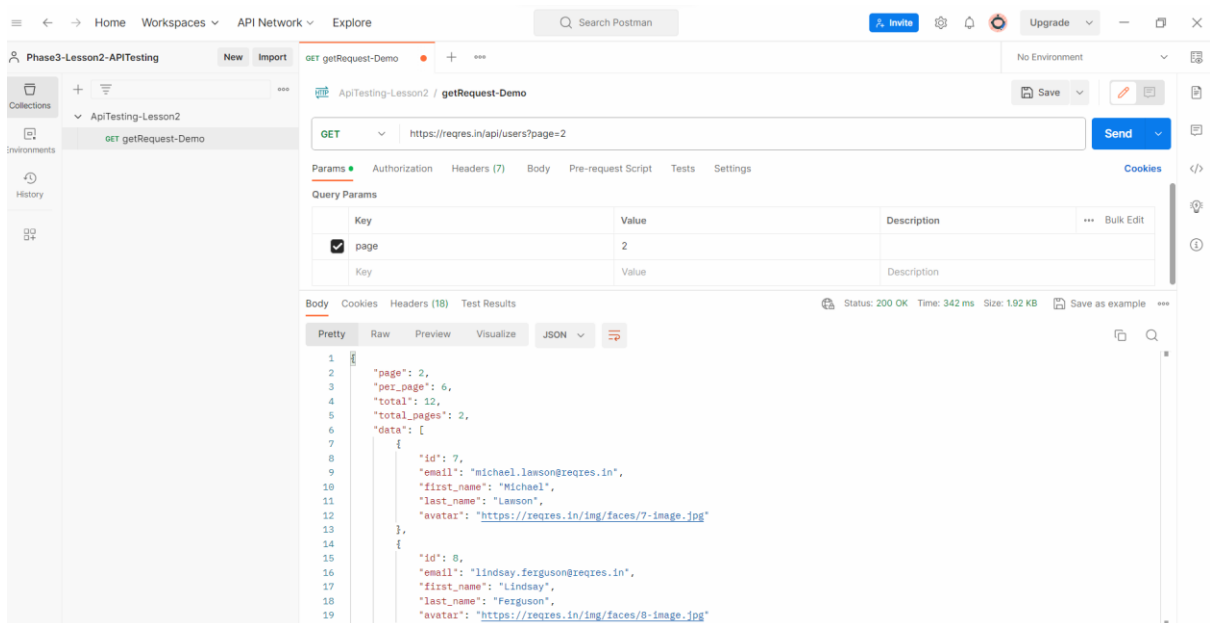

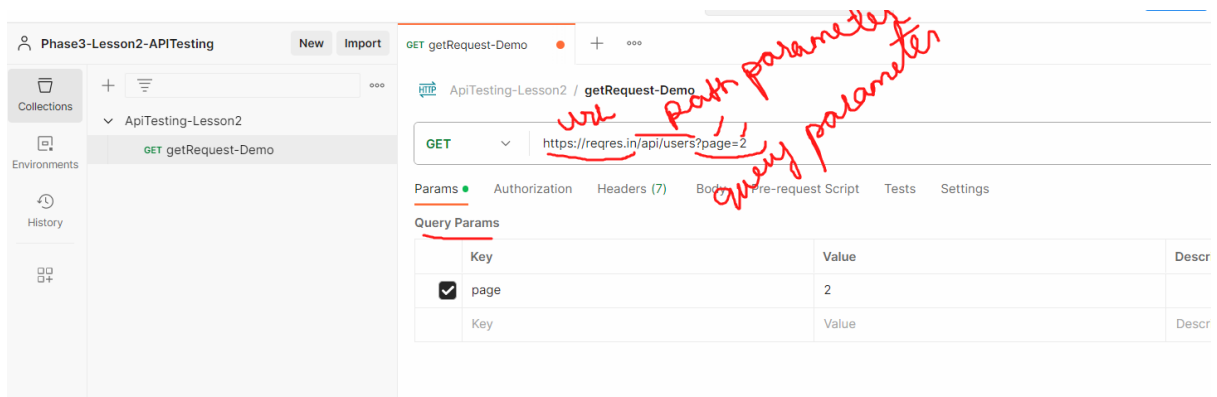

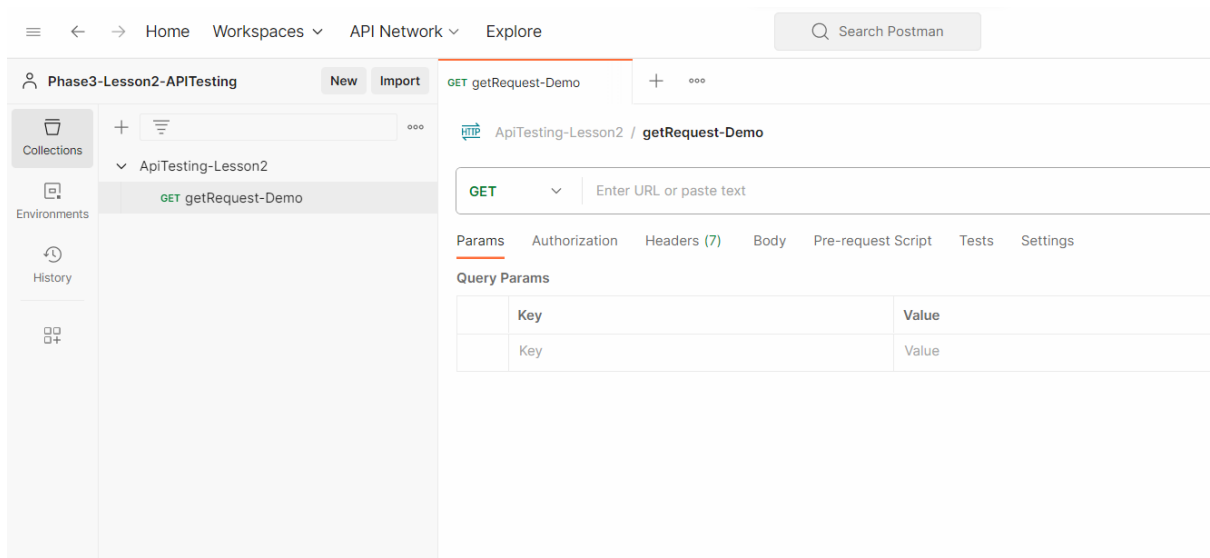

Give a name to the collection on right side:

Create a request and understand it:
